We firmly believe in the benefits of affordable, supervised Day Care and have seen it pay off for many of our clients with fitter, happier, and more socially well-adjusted dogs. Still, the dogs have to be matched with new playmates of the appropriate age, size, disposition, and activity level. Stonehedge Kennel's owners and staff have the experience to integrate your dog into the proper playgroup safely. If you engage our services on a day or week when we have a few boarders or other daycare clients, we have three sizes of well-socialized dogs in our kennel to offer to socialize your dog. We have friendly toys, medium, and large-size new playmates for your pet.

Our goal is to have your dog happy and tired!

All candidates for Day Care begin with an individual evaluation where we recommend the playgroup we think would work best and how often that dog should come to derive the maximum benefits of Day Care.

Daycare at the dog resort is not only reserved for dogs that are socialized and like to play. It can also benefit dogs that need confidence toward life in general, super active, and puppies.
